

EXPERTeach

Company Profile

About ExperTeach

ExperTeach Gesellschaft für Netzwerkkompetenz mbH was founded in 1995 and today has around 125 employees. Training, consulting and certification for IT, telecommunications and network technology are the main focus of the company's services. The goal is to prepare the IT teams of their customers for the challenges of digitalization!

The ExperTeach Offer

ExperTeach is a partner of AWS, Citrix, Check Point, Cisco, Microsoft, Trend Micro, VMware, and many other IT manufacturers and cloud providers. In addition to the standard training courses and certifications of these companies, ExperTeach offers a wide range of IT courses developed in-house.

A particular focus is on individual training measures that can be tailored to the specific needs of customers. The methods used include classroom courses, online courses, hybrid courses as a combination of both, as well as digital learning and e-learning. This means that the most suitable form of teaching can be selected for every situation.

Customers of ExperTeach

Customers include global corporations, large national companies as well as small and medium-sized enterprises from all business sectors, trade and public institutions. ExperTeach has a great deal of specialist knowledge for network operators and service providers and therefore serves this clientele with highly specific training programs.

Locations and Subsidiaries

The headquarters of ExperTeach is in Dietzenbach near Frankfurt am Main. The company operates its own training centers there and in Düsseldorf, Hamburg, Munich and Vienna. Subsidiaries exist in Austria and Switzerland. The open courses are offered both in the company's own training centers and with partners in other cities.

Quality Standards

ExperTeach Gesellschaft für Netzwerkkompetenz mbH, based in Dietzenbach, along with its subsidiaries, is certified according to DIN EN ISO 9001:2015 and has an AZAV carrier approval for funded training measures.
