

This paper will cover up the user experience of opening a Capsule Docs protected document by a 3<sup>rd</sup> party user assuming the user **already has** a User Center account

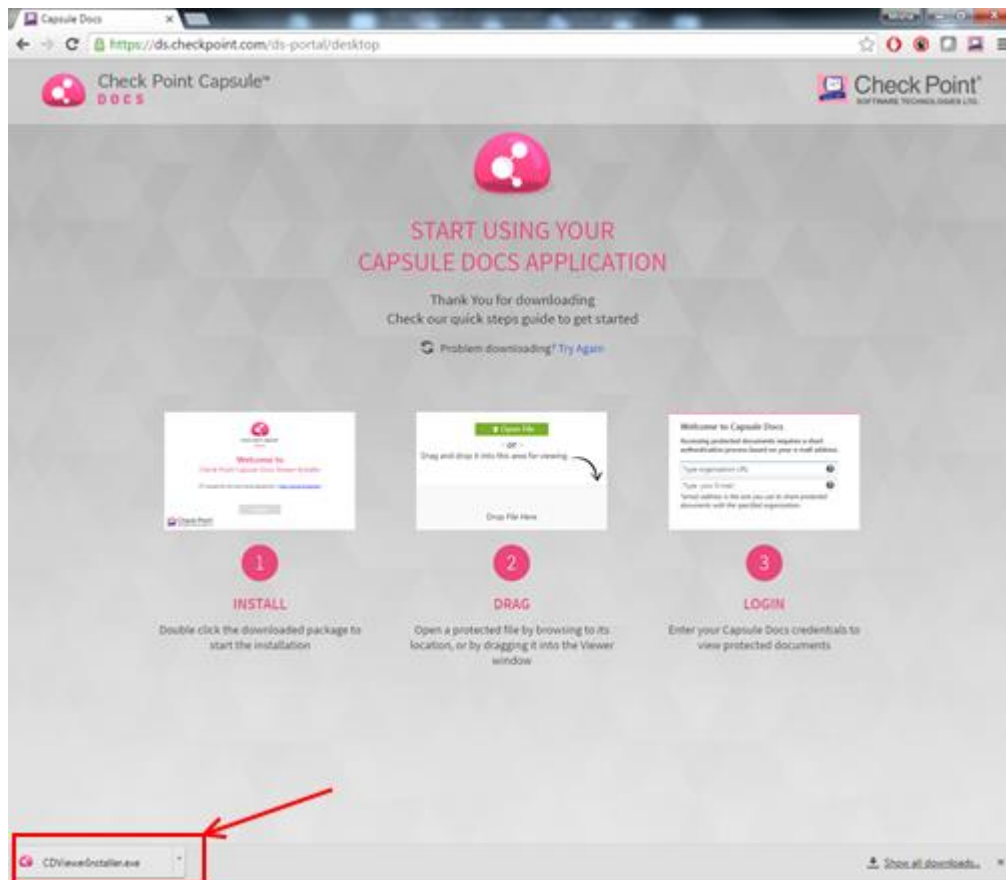

- 1) User opens the document for the first time. Capsule Docs friendly file is presented.

2) User click the <http://CapsuleDocs.com> link and the next web portal is opened:

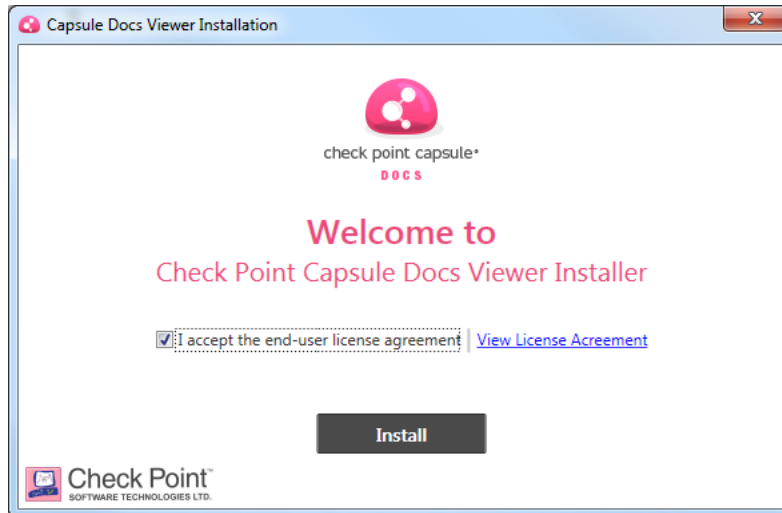

3) The user clicks on “Download Now!” button and the Capsule Docs viewer is downloaded to his computer.

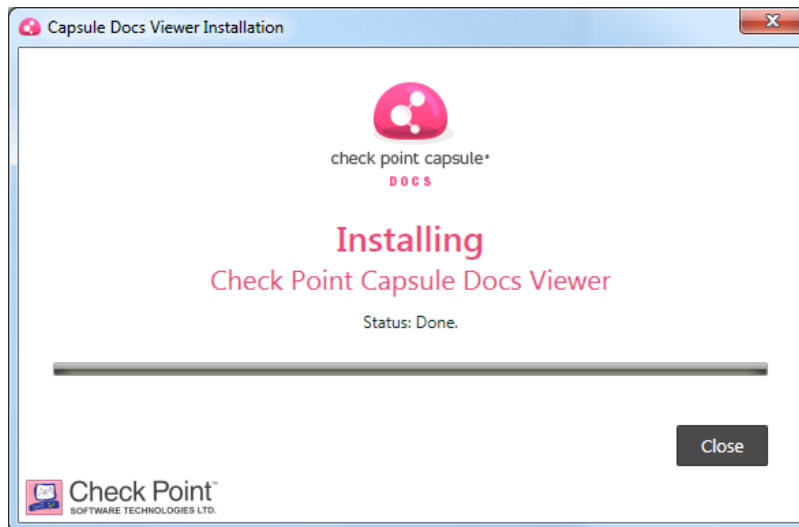

4) The user clicks on the installation file that was downloaded and the installation process begins:

a. User should agree to the end-user license agreement and click “Install”

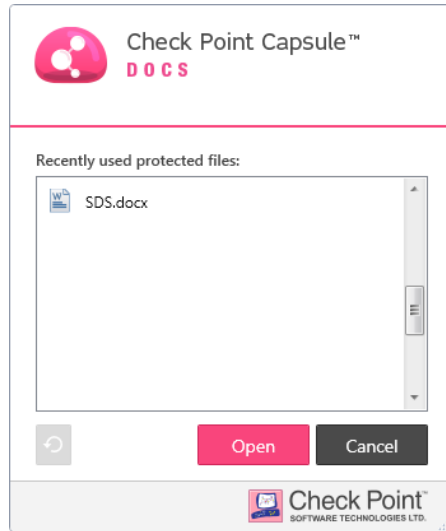

b. When installation finishes, the next window will be presented:

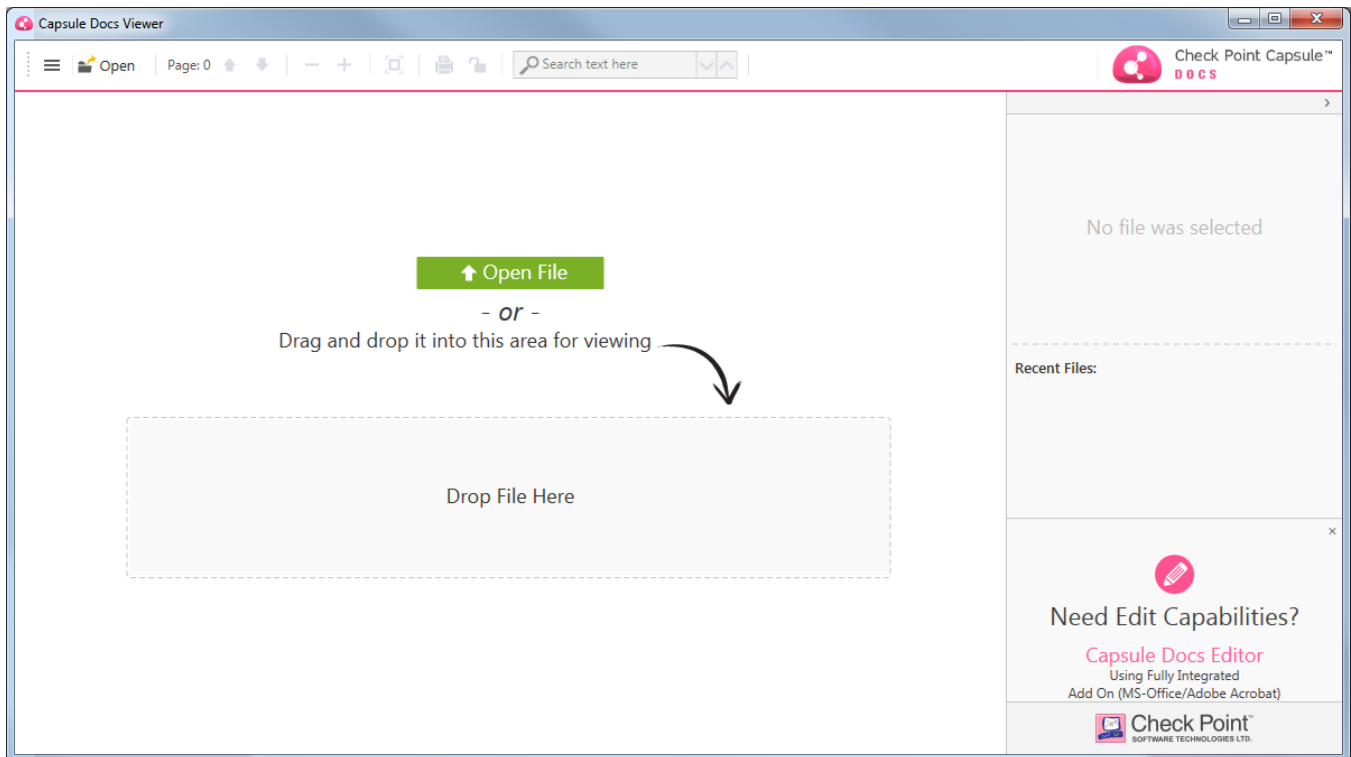

c. The user should click “Close” and Capsule Docs Viewer will be launched automatically

5) When Capsule Docs Viewer is launched, it will suggest a list of protected files found on the user's machine that the user might want to open. The user might select one of them and click "Open". If the user doesn't find the relevant document in the list, he can click "Cancel".

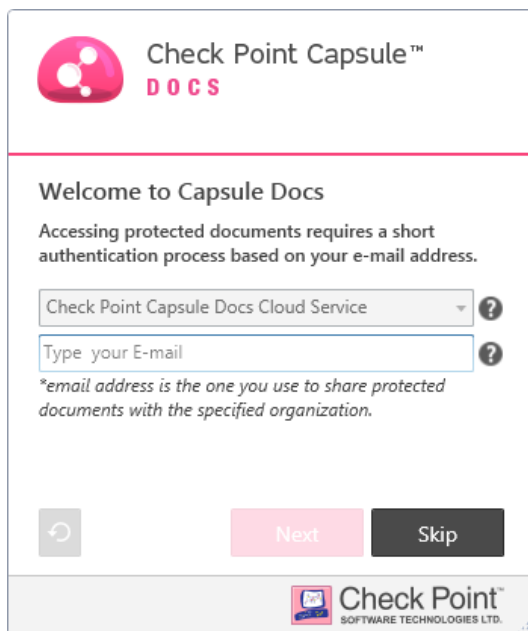

6) Capsule Docs Viewer looks like:

The user might open a file in 3 ways:

- a. Dragging a file into the designated area.
  - b. Clicking the green “Open File” button in the middle of the application.
  - c. Click the “Open” button on the top menu.
- 7) Once a file opening was triggered, a login page will pop up:

The screenshot shows the Check Point Capsule Docs login interface. At the top left is the logo, a red circle with three white dots, followed by the text "Check Point Capsule™" and "DOCS" in red. Below this is a horizontal red line. The main heading is "Welcome to Capsule Docs". Underneath, it states: "Accessing protected documents requires a short authentication process based on your e-mail address." There are two input fields: a dropdown menu with "Check Point Capsule Docs Cloud Service" and a text box with the placeholder "Type your E-mail". Both fields have a question mark icon to their right. Below the text box is a note: "\*email address is the one you use to share protected documents with the specified organization." At the bottom of the form are three buttons: a grey circular refresh button, a pink "Next" button, and a black "Skip" button. The footer contains the Check Point logo and the text "Check Point™ SOFTWARE TECHNOLOGIES LTD."

8) The user should enter his User Center password:

Check Point Capsule™  
DOCS

---

Hi

Please enter your password:

[Forgot Password?](#)

[Not Registered? Sign Up](#)

Check Point Capsule™  
DOCS

---

**Congratulations!**

You have successfully enabled your Capsule Docs account on this computer.

Capsule Docs allows you to share documents securely and transparently.

Help Check Point improve Capsule Docs by sending anonymous usage information.

9) Finishing this flow will open the required document in the Capsule Docs Viewer.
