

VMware Workspace ONE: Skills for UEM

In this three-day course, you learn how to apply the fundamental techniques for launching and maintaining an intelligence-driven, multiplatform endpoint management solution with VMware Workspace ONE® UEM. Through a combination of hands-on labs, simulations, and interactive lectures, you will configure and manage the endpoint life cycle. After the three days, you will have the foundational knowledge for effectively implementing Workspace ONE UEM.

Kursinhalt

- Course Introduction
- Platform Architecture
- Administration
- Enterprise Integrations
- Onboarding
- Managing Endpoints
- Alternative Management Methods
- Applications
- Device Email
- Content Sharing
- Maintenance

E-Book Sie erhalten englischsprachige Unterlagen von VMware als E-Book.

Zielgruppe

Workspace ONE UEM operators and administrators, account managers, solutions architects, solutions engineers, sales engineers, and consultants

Voraussetzungen

This course has no prerequisites.

Kursziel

VMware Certified Professional - Digital Workspace 2022

Inhaltsverzeichnis

VMware Workspace ONE: Skills for UEM

1 Course Introduction

Introductions and course logistics

Course objectives

2 Platform Architecture

Summarize the features and functionality of Workspace ONE UEM

Outline the benefits of leveraging Workspace ONE UEM

Recognize the core and productivity components that make up the Workspace ONE UEM platform

Summarize high availability and disaster recovery for Workspace ONE Solution

3 Administration

Navigate and customize the Workspace ONE UEM console

Summarize the hierarchical management structure

Explain the features and functions of Workspace ONE Hub Services

Outline account options and permissions

4 Enterprise Integrations

Outline the process and needs to integrate with directory services

Explain certificate authentication and practical implementation with Workspace ONE

Explain the benefits of integrating an email SMTP service into the Workspace ONE UEM console

Describe VMware Dynamic Environment Manager and its architecture

5 Onboarding

Outline the prerequisite configurations in the Workspace ONE UEM environment for onboarding devices for management

Outline the steps for setting up autodiscovery in the Workspace ONE UEM console

Enroll an endpoint through the VMware Workspace ONE® Intelligent Hub app

Summarize platform onboarding options

6 Managing Endpoints

Explain the differences between device and user profiles

Describe policy management options for Windows 10

and macOS

Describe the functions and benefits of using

compliance policies

Explain the use case for Freestyle Orchestrator

Describe the capabilities that sensor and scripts enable.

7 Alternative Management Methods

Describe the function and benefits of device staging

Configure product provisioning in the Workspace ONE UEM console

Understand the benefits of deploying a VMware Workspace ONE® Launcher™ configuration to Android devices

List the system and device requirements for Linux device management in Workspace ONE UEM

8 Applications

Describe the features, benefits, and capabilities of application management in Workspace ONE UEM

Understand and configure deployment settings for public, internal, and paid applications in the Workspace ONE UEM console

Describe the benefits of using Apple Business Manager content integration

Describe the benefits of using server-to-client software distribution

List the functions and benefits of VMware Workspace ONE® SDK

9 Device Email

List email clients supported by Workspace ONE UEM

Configure an Exchange Active Sync profile in the Workspace ONE UEM console

Configure VMware Workspace ONE® Boxer settings

Summarize the available email infrastructure integration models and describe their workflows

Configure email compliance policies and notifications services

10 Content Sharing

Describe the benefits of using Content Gateway and the Content Gateway workflows

Describe the benefits of integrating content repositories with Workspace ONE UEM

Configure a repository in the Workspace ONE UEM

console

11 Maintenance

Manage endpoints from the Device List view and the Details view.

Analyze endpoint deployment and compliance data from Workspace ONE UEM Monitor page.
