

Hygienic Concept

in the ExperTeach Training Center

EXPERTeach

To counter the spread of the COVID-19 infection and to minimize risks, we have implemented the following hygienic rules in our Training Centers.

Information

- We offer our course participants information on our sanitation concept and rules of conduct at our entrance section, in the training rooms, and recreation zones, as well as in the toilets.
- At the start of the seminar, we inform the participants about the valid rules of conduct.
- Markings on the floor point out the necessary safety distances.

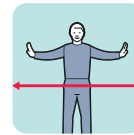

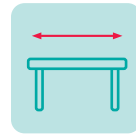

Mask recommendation

- In our Training Centers we recommend that you wear a medical mask in public areas.

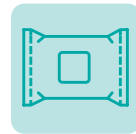

Hygienic Measures

- Disinfection agents are provided for in the foyer, in the recreational zones, and in the toilets.
- Disinfection agents are provided for trainers and course participants in or at the immediate vicinity of the training rooms.
- Training rooms, including the surfaces, are cleaned at least once per day.
- Door knobs and similar surfaces, which are frequently touched, are cleaned several times per day.
- In the course room, the trainer will make sure that the room is aerated regularly and carefully (at least once per hour). In the offices, the employees shall be responsible for carrying out this task.

Rules to Keep the Safety Distance

- Please continue to maintain a distance of 1.5 meters where possible.
- There is a fixed seating order during the training.

Breaks and snacks

- Snacks will be offered in hygienic packaging.
- We make sure that not all groups have their breaks at the same time.

Wash hands

- Soap for at least 20 seconds
- Soap up to the wrist.

Cough and sneeze properly

Be careful when touching
