

Cloudera Administrator Training for Apache Hadoop

This administrator training course for Apache Hadoop provides System Administrators a comprehensive understanding of all the steps necessary to operate and manage Hadoop clusters. From installation and configuration, through load balancing and tuning your cluster, Cloudera's Administration course has you covered.

Course Contents

- The Case for Apache Hadoop
- Hadoop Cluster Installation
- The Hadoop Distributed File System (HDFS)
- MapReduce and Spark on YARN
- Hadoop Configuration and Daemon Logs
- Getting Data Into HDFS
- Planning Your Hadoop Cluster
- Installing and Configuring Hive, Impala, and Pig
- Hadoop Clients Including Hue
- Advanced Cluster Configuration
- Hadoop Security
- Managing Resources
- Cluster Maintenance
- Cluster Monitoring and Troubleshooting
- Conclusion

E-Book Each participant will receive the original documentation as a E-Book (pdf).

Target Group

This course is best suited to systems administrators and IT managers who have basic Linux experience. Prior knowledge of Apache Hadoop is not required.

Knowledge Prerequisites

This course is designed for people with at least a basic level of Linux system administration experience. Prior knowledge of Hadoop is not required.
