LoadRunner Enterprise Essentials

This five-day course introduces students to the LoadRunner application. The course covers topics about the Virtual User Generator (VuGen), Controller, and Analysis tools. This course is designed to give you a foundation in basic load testing tasks. You create and run load test scenarios using the Controller. The Analysis tool is used to analyze load test results, and you learn to work with the graphs to display data after a test is executed.

The hands-on labs are designed to provide you with the knowledge necessary to create scripts in VuGen, execute scenarios in the Controller, and view the results in the Analysis tool. The course consists of focused, task-oriented lectures, text, and a series of detailed hands-on labs to teach the course material to the student.

Course Contents

- LoadRunner Enterprise Course Overview
- Introduction to LoadRunner Enterprise
- New Features in LRE
- Performing LRE Admin Tasks
- Planning an Effective Load Test
- Working with Vuser Scripts and Creating Monitor Profiles
- Configuring the Performance Test and Assigning a Monitor Profile
- Updating Runtime Setting and Defining Service Level Agreements (SLAs)
- Creating a Test Set, Reserving Timeslot, and Running a Load Test
- Accessing Test Runs and Managing Performance Trends
- Course Overview of Virtual User Generator
- Introduction to Virtual User Generator (VuGen)
- What's New in VuGen
- Recording Scripts for Web Applications
- Replaying the Vuser Scripts
- Inserting Transactions into the Script
- Parameterizing a Script
- Verifying the Vuser Scripts
- Creating Actions for a Web Script
- Using the VuGen Editor
- Using the Advanced Scripting Techniques for Vuser Scripts
- Auto Correlation After Recording
- Using Manual Correlation
- Auto Correlation During Recording

Target Group

This course is intended for:

- Quality Assurance and Performance Engineers
- Users of LoadRunner who need to create scripts to load test their web applications
- Executives involved in any aspect of the load testing process

Prerequisites

To be successful in this course, you should have the following prerequisites or knowledge:

- Have working knowledge of Windows, websites, and browsers
- Fundamental understanding of C programming is helpful, but not required

This Course in the Web

You can find the up-to-date information and options for ordering under the following link:

Reservation

On our Website, you can reserve a course seat for 7 days free of charge and in a non-committal manner. This can also be done by phone under +49 6074/4868-0.

Guaranteed Course Dates

To ensure reliable planning, we are continuously offering a wide range of guaranteed course dates.

Your Tailor-Made Course!

We can precisely customize this course to your project and the corresponding requirements.

Training	Prices, excl. of V.A.T.	
Classes in Germany	5 Days	€ 4,000
Online Training	5 Days	€ 4,000
Dates upon request		

Status 03/25/2026

Our Training Offer for You:

Classroom Training

The live training experience in our training centers or on your premises on-site.

Online Training

Attend your course in online mode – without travel and accommodation expenses and effort.

Hybrid Training

Classroom & online in one course – choose how you wish to participate in your training event.

In-house Training

We create your customized training concepts for your project.

Guaranteed Course Dates

ExperTeach guaranteed course dates allow for secure and reliable planning.
