

AWS Cloud Essentials for Business Leaders – Financial Services

AWS Cloud Essentials for Business Leaders – Financial Services

This course is for business leaders who seek an overall understanding of the fundamental concepts of cloud computing. Learn how a cloud strategy can help you meet business objectives. In this half-day, instructor-led course, you'll explore the possibilities of cloud computing in banking, insurance, capital markets, payments, and financial technology. The course dives into the business value of the cloud through customer examples, exploring industry trends, and the Cloud Value Framework, which helps you understand the business value of building on AWS by assessing cost and value impact.

Course Contents

- Module 1: Course Introduction
- Module 2: Information Technology for Business Transformation
- Module 3: Cloud Computing
- Module 4: Business Value of the Cloud
- Module 5: The Cloud Value Framework
