AWS Jam for Cloud Operations on AWS

Practical day for team-based learning

The Cloud Operations on AWS Jam is a fun event where teams compete for points by completing a variety of challenges according to best practices based on concepts covered in the course. Teams will have the opportunity to experience a full range of AWS services in various real-world scenarios that represent common operational and troubleshooting tasks.

Course Contents
- Participate in team-based challenges in a real AWS environment.
- Compete with your peers in a fun, hands-on learning experience
- Apply your knowledge from the course to different AWS services

Target Group
This course is aimed at system administrators and operators working in the AWS cloud, as well as information technology staff who want to expand their knowledge of cloud operations.

Prerequisites
- Background in software development or system administration
- Knowledge of maintaining operating systems via the command line, e.g. shell scripting in Linux environments or cmd/PowerShell in Windows
- Basic knowledge of network protocols (TCP/IP, HTTP)

We recommend the following courses:

- AWS Technical Essentials
- Cloud Operations on AWS
