

AZ-900T00 Microsoft Azure Fundamentals

This course provides fundamental knowledge of cloud concepts, essential Azure services, Azure management and governance features and tools. This course primarily uses the Azure portal and command line interface to create resources. This course combines lectures, demonstrations and hands-on labs.

Course Contents

- Cloud Concepts
- Azure Architecture and Services
- Core Solutions

E-Book The original Microsoft courseware is made available to you online.

Target Group

This course is suitable for IT staff who are just getting started with Azure and anyone who wants to learn more about the offerings and gain hands-on experience with the product. Knowledge of scripting is not required. Participants of this course will gain confidence in other role-based courses and certifications, such as Azure Administrator.

Prerequisites

There are no prerequisites for attending the course. Familiarity with cloud computing is helpful, but not essential.

Course Target

This course helps to prepare for the exam within the certification Microsoft Certified: Azure Fundamentals.
