

## Brocade FOS 9.x / 10.x Admin Basics

This workshop deals with the administration of an open SAN in theory and practice. After an introduction of the basic terms you are presented with an overview of the possible SAN topologies. The administration of the SAN is carried out according to operational aspects. The practical exercises deal with the setup, configuration and administration of a Brocade-based SAN switch.

The complex heterogeneous test environment consists of:

- Server : Windows, Linux and VMware
- Storage : NetApp Controller e.g. Highspeed AFF A700
- Switches: Brocade G720/ G620/ 6505/ 6510

### Course Contents

- Definition SAN
- Brocade Produkt Vorstellung
- FOS 9.0. - 10.0 Features
- Begriffserklärungen
- Komponenten / Basis-Strukturen
- Topologien im Überblick
- Brocade-Produktpalette inkl. spezieller Features
- Kurzer Überblick NVMe über FC
- Brocade-Administration
- Server-Anbindung
- Backup im SAN

Service and maintenance of the components is not part of this training.

### Target Group

System Administrators, Storage Administrators, SAN Administrators

### Prerequisites

Windows, Linux and/or VMware ESX Knowledge

### Course Target

After this workshop, you will be able to commission and administer a SAN with regard to efficiency, security, and manageability.

This training serves as a practical supplement to the "Brocade SAN Administrator" certification.
