

Cisco U. Essentials

Essentials users will have access to everything in Cisco U. Free, plus a wide range of domain fundamentals, with Learning Paths covering topics such as BGP, MPLS, Hybrid Cloud, SD-WAN, and the Security Operations Analyst job role, among others.

Essentials also includes 3 associate-level certification Learning Paths, each of which follows the structure of the exam blueprint to streamline study time:

- CCNA,
- CyberOps Associate (Understanding Cisco Cybersecurity Operations Fundamentals)
- DevNet Associate (Developing Applications and Automating Workflows Using Cisco Core Platforms)

Essentials also brings in Cisco-adjacent technology training from vendor partners such as AWS, Microsoft, and Skillsoft. That way your team can get all the training they need in one place for multi-vendor solutions such as Hybrid Cloud—and their organization can get the best return on their training investment of money and their time.

Cisco U. is a new tech learning experience shaped around your team's learning needs, to help you get the most ROI from your Cisco technology investment and drive faster business outcomes.

How does Cisco U. do that? By relentlessly focusing on the individual learner, whether they need in-the-moment learning to handle everyday situations, or a deeper dive into learning for job roles, solutions, and certification prep.

Cisco U. meets your team's learning needs by following three guiding principles:

- guidance, meaning Cisco U. will guide them to content that's best for them,
- community, so they can collaborate with colleagues and Cisco experts,
- and depth, meaning the quality and richness of content.

In-depth training for your team - when they need it, the way they need it - gives you the resources you need to reduce downtime, and helps maximize the ROI from your Cisco technology. And yes, you can purchase Cisco U. subscriptions by redeeming your Cisco Learning Credits.

Target Group

The Cisco U. Essentials subscription is perfect for team members who are early in their careers.
