Dell Data Protection Advisor (DPA) Administration
Custom Reports

This course explains and demonstrates how to create custom reports using Data Protection Advisor (DPA). Participants will learn how to access and use DPA data sources and external data sources, how to apply DPA report operators and smart groups, and how to use advanced analytics and rules. A separate on-demand lab aligned with this course reinforces this knowledge through exercises.

Course Contents
- Explore Data Protection Advisor Custom Reporting
- Customize and Use Data Sources and Operators
- Customize the Appearance of Reports
- Advanced Custom Reporting
- Scenario Activity

Each participant will receive the original documentation from Dell Technologies.

Target Group
This course is designed for system administrators, system engineers, partners and support specialists who manage and support Dell Data Protection Advisor.

Prerequisites
In order to understand the content and successfully complete this course, participants should have completed the following course or have comparable experience and knowledge:

- Dell Data Protection Advisor (DPA) Implementation and Administration
