EAM introduction
entry into architecture management

Enterprise Architecture Management (EAM) has been an established management discipline in complex and innovative companies for a number of years. Its main benefit is the creation of a transparent structure of a company's components, from the organizational structure, business processes and application landscape to the hardware and network topology.

In addition, the aim is to show how these relationships change over time due to the impact of strategic and operational drivers.

Course Contents
• Introduction and motivation: Enterprise Architecture Management (EAM)
• Procedure for establishing EAM in a company
• Overview of common EAM frameworks such as TOGAF® or NAF (Nato Architecture Framework)
• Overview of EAM modeling languages such as ArchiMate or UML
• Presentation of visualizations for addressing stakeholder-specific requirements
• Overview of EAM tools
• Structuring the enterprise architecture and mapping it in a metamodel
• Factors for a successful EAM

This course prepares participants to establish or optimize EAM in a company.

Each participant receives detailed course materials. Examples from practical projects are presented for each chapter. A continuous group exercise with several task blocks rounds off the practical relevance of the course.

Target Group
This course is aimed at corporate, business and IT architects who want to expand their knowledge of EAM and need tools for EAM practice. The concepts learned can be used directly in your own architecture work at the end of the course.

Prerequisites
The course requires basic IT knowledge. Practical experience in dealing with management frameworks (e.g. TOGAF®, COBIT®, ITIL®) in the role of business analyst or software developer is also an advantage.

This Course in the Web
You can find the up-to-date information and options for ordering under the following link: www.experteach-training.com/go/**EAME**

Reservation
On our Website, you can reserve a course seat for 7 days free of charge and in an non-committal manner. This can also be done by phone under +49 6074/4868-0.

Guaranteed Course Dates
To ensure reliable planning, we are continuously offering a wide range of guaranteed course dates.

Your Tailor-Made Course!
We can precisely customize this course to your project and the corresponding requirements.
