

# Endpoint Privilege Manager (EPM) Administration

## Endpoint Privilege Manager (EPM) Administration

The course provides a technical introduction to the EPM solution. The course includes discussions of the EPM architecture along with software concepts including administration, policy creation, monitoring, and troubleshooting. The EPM Administration course will prepare each participant with the knowledge and hands-on experience to implement the EPM solution into the enterprise environment.

### Course Contents

- Describe the EPM solution and architecture
- Deploy and upgrade the EPM Agent
- Configure ransomware and threat protection
- Retrieve logs and perform simple troubleshooting tasks
- Describe implementation and roll-out best practices

Each participant will receive the original course documentation from CyberArk in English language as a PDF document.

### Target Group

- Partners who implement the EPM Solution
- Customers who administer EPM

### Prerequisites

- Basic networking knowledge
- Basic Windows administration knowledge
