ExtremeCloud IQ – API and Automation

At the end of this course, you will understand API and Automation concepts and be aware of a variety of tools and
methods for automating ExtremeCloud IQ deployments.

Automation is about turning repetitive jobs into self-proceeding procedures with use of scripts. Besides automating day-to-day tasks, this course is also about automating deployments. All these automations, tasks, workflows, and scripts result in a more efficient and effective way of doing business, but it also reduces human errors for "simple" and recurring tasks.

Course Contents
• API functionality
• CRUD operations
• REST APIs
• Exploring GraphQL
• ExtremeCloud Swagger UI
• Scripting language options along with their use cases and strengths including Python Script, JavaScript, and Node-RED
• Authorizing against ExtremeCloud IQ
• Authentication and authorization with XIQ-SE
• Automating a deployment with Python
• Creating a Private Pre-Shared Key (PPSK)

E-Book For this course you will receive the original documentation from Extreme Networks as a PDF file.

Target Group
This is an introduction level API course. Frequent and experienced API users are not encouraged to enroll.

Prerequisites
Scripting skills are required to master automation and implement solutions independently, but instruction about custom scripting is limited. All scripts required for the labs are provided.

Course Target
• Learners will be able to define what an API is and how a business can benefit from using APIs and automation
• Identify the four common data manipulation operations which are known under the CRUD abbreviation
• Identify different types of APIs, specifically RESTful APIs, GraphQL, SOAP, and Websockets
• Identify the different products from Extreme Networks that offer APIs
• Learn about and practice using the most common scripting languages including Visual Programming, Python, JavaScript, and flow-based visual programming
• Identify examples of network configuration and automation by using ExtremeCloud APIs
• Use tools to quickly create a dashboard using ExtremeCloud APIs
• Identify best practices regarding security

Our Training Offer for You

Classroom Training
The live training experience in our training centers or on your premises on-site.

Online Training
Attend your course in online mode – without travel and accommodation expenses and effort.

Hybrid Training
Classroom & online in one course – choose how you wish to participate in your training event.
In-house Training
We create your customized training concepts for your project.

Guaranteed Course Dates
ExperTeach guaranteed course dates allow for secure and reliable planning.
