

ExtremeCloud SD-WAN - Installation and Configuration

This course will enable you to install and configure an ExtremeCloud SD-WAN solution including the major Site types: Bridge mode, Router mode, Hybrid mode and Remote Visibility Control (RVC) Site. You will gain an understanding of the concepts and functionality of the SD-WAN architecture through comprehensive lectures and discussions. By performing the labs, you will experience onboarding the appliances with ExtremeCloud SD-WAN Orchestrator and validating network application flow.

Course Contents

- ExtremeCloud SD-WAN Solution Overview
- ExtremeCloud SD-WAN Appliances Architecture
- ExtremeCloud SD-WAN Appliances and Installation
- SD-WAN User Interface and Onboarding
- Overlay in Full-router mode & Hybrid mode
- Gateways (External, Cloud) Overview
- Application Visibility - Application Database
- Application Visibility - Cloud Application Database
- Application Control Principles and Configuration
- Dynamic WAN Selection (DWS) Principles & Configuration

E-Book For this course you will receive the original documentation from Extreme Networks as a PDF file.

Target Group

This course is designed as the first step for individuals responsible for the installation and configuration of the ExtremeCloud SD-WAN solution.

Prerequisites

You should have an understanding of networking fundamentals, general network management concepts, and network security concepts and technologies.

A mandatory prerequisite for the subsequent exam of this course is completion of the Welcome Series Meet ExtremeCloud SD-WAN and the associated Associate Certification. This Welcome Series is an OnDemand course consisting of six video sessions with 15-30 minutes of content each. After attending the OnDemand training, you can take the free exam to earn the Extreme Certified Associate in ExtremeCloud SD-WAN certification. The course and associated exam can be started in ExtremeDojo™. Only after completing this certification will it be possible to enroll in ExtremeCloud SD-WAN - Installation and Configuration in ExtremeDojo™ and then take the associated exam.

Course Target

After completing this course, you will have the expertise to:

- explain the architecture of the SD-WAN solution, including key solution components: Connectivity options, security options, application performance, and orchestration.
- implement an ExtremeCloud SD-WAN solution, including onboarding appliances and monitoring application traffic to confirm proper operation.

Our Training Offer for You

Classroom Training

The live training experience in our training centers or on your premises on-site.

Online Training

Attend your course in online mode – without travel and accommodation expenses and effort.

Hybrid Training

Classroom & online in one course – choose how you wish to participate in your training event.

In-house Training

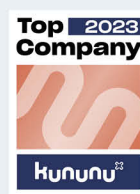

We create your customized training concepts for your project.

Guaranteed Course Dates

ExperTeach guaranteed course dates allow for secure and reliable planning.
