

Extreme Fabric - Management

The Management of Extreme Networks' Fabric Connect is the goal of the course. Students will gain a detailed explanation of the fabric services and configure these in the lab. The latest automation features are covered including auto-sense ports and self-forming fabric. And to provide an understanding of the management products that Extreme offers, students will experience on-boarding switches to both ExtremeCloud™ IQ and the campus solution ExtremeCloud IQ-SE (Site Engine). Lectures are supported equally with hands-on experience on VSP8400, Universal Hardware 5520, and EXOS.

Course Contents

- Campus Fabric Services Detail
- Principles of Automation
- ExtremeCloud IQ Management
- ExtremeCloud IQ-SE Management

E-Book For this course you will receive the original documentation from Extreme Networks as a PDF file.

Target Group

This course is designed for network administrators, engineers, and integrators responsible for the configuration and management of the Extreme Networks Campus Fabric Connect switches.

Prerequisites

To take part and to gain the most benefit from this training, you must possess the full learning credential in Extreme Fabric - Installation and Configuration.

Course Target

Upon completion of this course, students will have gained the working knowledge to:

- add/change fabric services and add devices to an existing Fabric Connect solution.
- utilize the new automation features including autosense and self-forming fabric.
- understand Extreme's management solutions:
- ExtremeCloud IQ and the campus solution ExtremeCloud
- IQ-SE (Site Engine) and on-board and manage switches successfully.
