Extreme Switching - Advanced Configuration

Students will learn methods to enhance their existing switching and routing environment with security, traffic optimisation, automation and integration features. Several network management tasks will be exercised. This knowledge will be reinforced through actual hands-on experience with networking equipment in a lab environment, where students will perform real world tasks.

Course Contents
- Security
- EXOS Security Overview
- Authentication, Authorization and Accounting
- Access Control Lists
- Policy

- Optimization
- Traffic Optimization
- Automation
- Fabric Attach

E-Book For this course you will receive the original documentation from Extreme Networks as a PDF file.

Target Group
This course is designed as optimisation-oriented knowledge enhancement for individuals responsible for deploying and maintaining of the Extreme Networks family of ExtremeXOS/ Switch Engine switches.

Prerequisites
Students should already possess a learning credential in Extreme Switching - Installation and Configuration.

Course Target
Upon completion of this course, students will have gained the working knowledge to:

- implement security mechanisms in ExtremeXOS/SwitchEngine devices, such as ONEPolicy or ACLs.
- implement traffic optimization techniques e.g., Quality of Service.
- automate, integrate, and enhance ExtremeXOS/SwitchEngine capabilities with features such as Fabric Attach, CLI scripting as well as Python scripting and Python processes.

Our Training Offer for You:

Classroom Training
The live training experience in our training centers or on your premises on-site.

Online Training
Attend your course in online mode – without travel and accommodation expenses and effort.

Hybrid Training
Classroom & online in one course – choose how you wish to participate in your training event.

In-house Training
We create your customized training concepts for your project.

Guaranteed Course Dates
ExperTeach guaranteed course dates allow for secure and reliable planning.
