

H7H11S

Using HPE OneView, Rev. 21.41

This course teaches the HPE OneView 6.X infrastructure management solution. It is the supporting training course for the exam requirement in the certification, HPE Product Certified - HPE OneView (2021).

Course Contents

- Module 1: HPE OneView Introduction
- Module 2: HPE OneView Installation and Initial Setup
- Module 3: Managing Networking in HPE OneView
- Module 4: Managing HPE Storage Using HPE OneView
- Module 5: Managing HPE Servers Using HPE OneView
- Module 6: Managing Server Profiles Using HPE OneView
- Module 7: Managing Data Center Management and Security in HPE OneView
- Module 8: Troubleshooting and Maintaining HPE OneView

Target Group

Ideal candidates for this course need to learn how to describe, position, recommend, and demonstrate HPE OneView technologies to meet a customer's business and technology requirements. Typical candidates are:

- Sales consultants
- Technical consultants
- Sales engineers
- Systems engineers
- Pre-sales engineers

Prerequisites

None

Course Target

After you successfully complete this course, you should be able to describe and explain the ecosystem, installation, connectivity, and management of HPE OneView. This course prepares participants for the HPE Product Certified - HPE OneView [2021] certification exam. The HPE OneView Product Certification covers all aspects of HPE OneView management, including:

- The HPE OneView ecosystem including integration points and basics of REST API and PowerShell scripting
- The HPE OneView installation process (appliance and HPE Composer) and initial setup
- Connectivity management using HPE OneView
- Storage management using HPE OneView
- Server/frame/enclosure management using HPE OneView
- Server profile management using HPE OneView
- Security and data center management using HPE OneView
- Basic troubleshooting and maintenance procedures for HPE OneView
- Integration plugin-ins
