Horizon Advanced Integrations

The Horizon Advanced Integrations course is delivered by Omnissa Enablement and Learning team technical specialists and is solution-oriented.

You will learn how Workspace ONE with Horizon can help solve business challenges related to manageability, security, availability, recoverability and performance.

The main objective of this training is to introduce the End-User Computing (EUC) product suite and its solution-oriented approach to addressing business challenges.

Course Contents
- Integrate Horizon with Horizon Cloud NEXT GEN.
- Deploy the Unified Access Gateway, with their own developed PowerShell Script.
- Configure a seamless multi-site access solution with NSX Advanced
- Loadbalancer using Global Server Load balancing and Local Server Load balancing.
- Configure Horizon Cloud Pod Architecture to solve high availability and scalability requirements.
- Configure a secure Single Sign-On solution using Workspace ONE Access and secured endpoints using Workspace ONE UEM.
- Integrating Horizon with OPSWAT.
- Integrate with untrusted Active Directory Forests to provide secure resources when organizations are isolated.
- Deploy Apps-on-Demand with a view to maintaining redundancy and enhancing manageability in a multi-site Enterprise.
- Facilitate and manage the end-user experience for Microsoft Windows Users using Dynamic Environment Manager.
- Integrate with ThinApp to help with legacy application and platform challenges

Target Group
- Systems Engineers
- Consulting Architects
- Citrix Specialists (who would like to upskill on Workspace ONE with Horizon)
- Microsoft End-User Computing Specialists

Prerequisites
Recommended:

- Omnissa Certified Professional Desktop (OCPD)
- A basic understanding of Horizon is an advantage.
- A basic knowledge of end-user computing is recommended.
- Additional platform knowledge of vSphere is an advantage.

Technical requirements:

Bring a laptop with you. A second device is recommended for the documents and the lab. Please make sure you have the US keyboard layout installed on your devices.
