- Performing Mailbox Migrations
- Deploying and Troubleshooting a Hybrid Environment

E-Book The original Microsoft courseware is made available to you online.

Target Group

This course is designed for individuals who aspire to the role of Microsoft 365 Messaging Administrator. The Messaging Administrator distributes, configures, and manages recipients, permissions, mail protection, mail flow, and public folders in both on-premises and enterprise cloud environments, and provides troubleshooting. Responsibilities include managing message hygiene, messaging infrastructure, and hybrid configuration and migration. To implement a secure hybrid topology that meets the business needs of a modern enterprise, the messaging administrator must work with the security administrator and the Microsoft 365 enterprise administrator. The messaging administrator should have a working knowledge of authentication types, licensing, and integration with Microsoft 365 applications.

Prerequisites

Hands-on experience with authentication, licensing, and integration with Microsoft 365 applications.
