Manage and Extend Microsoft 365 Copilot

This course offers additional learning and practice opportunities and is not associated with a certificate/exam.

This course explores how administrators can manage and extend Microsoft 365 Copilot to meet their business needs. The course provides an introduction to Copilot, examines how it is implemented and managed, and then explores the basics of Copilot extensibility.

Course Contents

- Preparing for Microsoft 365 Copilot
- Data security and compliance in Microsoft 365 Copilot
- Zero Trust security principles for Microsoft Copilot
- Managing Microsoft Copilot
- Managing Microsoft 365 Copilot
- Extensibility of Microsoft 365 Copilot
- Selecting an extensibility path for Microsoft 365 Copilot
- Managing extensibility of Microsoft 365 Copilot

E-Book The original Microsoft courseware is made available to you online.

Target Group

This course is aimed at administrators, Microsoft 365 administrators and IT professionals who want to learn more about managing and extending Microsoft 365 Copilot.

Prerequisites

Course participants should have basic functional experience with Microsoft 365 services. Course participants must have a good knowledge of general IT methods.

Course Target

After completing this training, participants should be able to successfully implement Microsoft 365 Copilot in their organization, meet security and compliance requirements, apply Zero Trust principles to their Copilot deployment, and leverage the extensibility of Microsoft 365 Copilot through agents, connectors, and plug-ins. In addition, they will be able to effectively manage Copilot settings, data and interactions to ensure optimal usage and security in their digital infrastructure.
