

## Palo Alto Networks EDU 220 Panorama: Managing Firewalls at Scale

This is a specialised course for the Panorama centralized management solution. It not only teaches the features and functionalities of Panorama but also provides guidance on how to design a distributed firewall network that is managed from a central location.

### Course Contents

- Initial Configuration
- Adding Firewalls
- Templates
- Device Groups
- Log Collection and Forwarding
- Using Panorama Logs
- Panorama Administrative Accounts
- Reporting
- Troubleshooting

**E-Book** You will receive the original course documentation from Palo Alto in English language. The course documentation is also available as E-Book.

### Target Group

Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, Network Engineers, and Support Staff

### Prerequisites

The EDU-210 FireWall: Configuration and Management course or equivalent practical experience working with the Palo Alto Networks Next-Generation Firewall is a recommended prerequisite to take this course.

### Course Target

This course, in conjunction with Palo Alto Networks Firewall Essentials: Configuration and Management (EDU-210), is the ideal preparation for your PCNSE (Certified Network Security Engineer) certification. The PCNSE exam is taken at a Pearson Vue test center.
