PowerPackage Check Point CCSA and CCTA

Certified Security Administrator & Troubleshooting Administrator

PowerPackage Check Point CCSA and CCTA

This PowerPackage combines the content of the Check Point Certified Security Administrator R81.20 – CCSA and Check Point Certified Troubleshooting Administrator R81.20 – CCTA courses into one event.

On the one hand, this course provides participants with the knowledge necessary to install, configure, and manage the day-to-day operations of the Check Point Security Gateway and Software Blade architecture. Further, the training provides an understanding of the concepts and skills needed to troubleshoot issues that may arise when managing the Check Point Security Management architecture and Security Gateways.

In addition to the GAiA operating system, the course draws on the R81.20 release for this purpose.

Course Contents

Part 1:

- Security Architecture
- Application Control
- Deployment
- Licensing
- Gaia Portal
- Hide/Static NAT
- URL Filtering
- Monitoring States
