

PowerPackage Check Point CCSA and CCTA

PowerPackage Check Point CCSA and CCTA Certified Security Administrator & Troubleshooting Administrator

This course provides participants with the knowledge required to install, configure and manage the day-to-day operation of the Check Point Security Gateway and Software Blade architecture. Furthermore, the training provides an understanding of the concepts and skills required to troubleshoot issues that may arise when managing the Check Point Security Management Architecture and Security Gateways.

In addition to the Gaia operating system, the course uses the R81.20 release.
