PowerPackage Check Point CCSE and CCTE
Certified Security Expert & Troubleshooting Expert

This course is aimed at those who want to expand their knowledge of the basic operation of the Check Point Firewall with the R81.20 release and offers an extended and in-depth look at the technology. Furthermore, the training is designed for security professionals who want to expand their troubleshooting skills to perform advanced troubleshooting on Check Point installations in a network. The content includes upgrading concepts and practices, key tips and techniques to increase network performance, and additional management and troubleshooting features to mitigate security risks.

Course Contents
Part 1:

• Management Upgrade and Migration
• Management High Availability
• Security Gateway Upgrades
• Advanced Check Point Maintenance
• Security Gateway Operations
• Policy Installation
• Gaia and Management APIs
• Acceleration
• Site-to-Site VPN
• Remote Access VPN
• Mobile Access VPN
