

TOGAF® EA Foundation/ Practitioner Training – Foundation

TOGAF® is a globally established approach to the management of complex enterprise architectures. Continuously developed by a global consortium of over 450 organizations, the framework provides a common terminology, concepts and techniques for describing, defining and transforming architectures.

The course teaches the basics of enterprise architecture with a focus on the components of TOGAF® Enterprise Architecture Part 1 required for the TOGAF® certification. The relevant exam content is taught directly and immediately and discussed together using a case study. The concepts learned can be used directly in your own architecture work at the end of the course.

Course Contents

- Introduction to EAM (Enterprise Architecture Management) / TOGAF®
- Core concepts of TOGAF®
- The Architecture Development Method
- ADM customization recommendations
- ADM Techniques
- Architecture Content Framework
- Architecture Capability Framework and Governance (Architecture Capability Framework and Governance)
- TOGAF® to support agility and digitalization

Examination

This course prepares participants for the official TOGAF® Enterprise Architecture Part 1 exam. The exam fee is included in the course price!

Target Group

This course is aimed at business, technical and IT architects who wish to be certified in TOGAF® Enterprise Architecture Part 1.

Prerequisites

This foundation course requires basic knowledge of enterprise architecture management and strategic IT management. Practical experience in working with frameworks (e.g. Cobit, ITIL®) in the role of a business analyst or software architect is also recommended.
