TOGAF® EA Foundation/ Practitioner Training – Practitioner

TOGAF® is a globally established approach to the management of complex enterprise architectures. Continuously developed by a global consortium of over 450 organizations, the framework provides a common terminology as well as various concepts and techniques for describing, defining and transforming architectures.

Building on existing TOGAF® EA knowledge, this course deepens the recognized EA framework and thus optimally prepares participants for the official TOGAF® Enterprise Architecture Part 2 exam.

Course Contents
- Overview EAM and TOGAF® / Management Frameworks / TOGAF® Certification
- ADM preparation / Creating the context and stakeholder management
- Architecture vision / The starting point
- Definition of business architecture
- Definition of data and application architecture
- Definition of technology architecture
- Solution selection and identification and planning of implementation projects
- Initiation and management of implementation projects
- Architecture control and requirements management
- Adaptation recommendations (e.g. for agility and digitalization)
- Framework for architecture content / metamodel and EA repository
- Framework for architecture capability and control / maturity assessment and role model

Exam

Two exams (TOGAF® Enterprise Architecture Part 1 & 2) must be passed for TOGAF® Enterprise Architecture Part 2 certification. The exam fee for TOGAF® Enterprise Architecture Part 2 is included in the course price!

Target Group

This course is aimed at business, technical and IT architects who would like to be certified in TOGAF® Enterprise Architecture Part 2 and already have Foundation certification. The relevant exam content is taught directly and immediately and discussed together using a case study. The concepts learned can be used directly in your own architecture work at the end of the course.

Prerequisites

The advanced course requires participation in a TOGAF® EA Foundation/ Practitioner Training - Foundation or TOGAF® 9 Foundation course. Participants are familiar with concepts of enterprise architecture management (in particular TOGAF®) and strategic IT management. They also have practical experience in the application of business and IT frameworks.
